

**AIDIMME, METAL-PROCESSING, FURNITURE, WOOD AND  
PACKAGING TECHNOLOGY INSTITUTE TPC - 15**

**DECLARES:**

AIDIMME has carried out a supervision audit to the manufacturer KASTAMONU ROMANIA, S.A. placed in *37 Ierbus Street, Reghin, 545300 Mures, Romania*, concerning to the production of particleboard with a low release of formaldehyde. In this audit and inspection AIDIMME has followed the instructions of the DIBt Guideline N° 100 and the requirements of the IOS MAT 0003 version AA-10899-16.

The audit has been focused on the coated panels MFC from CARB and US EPA TSCA Title VI certified Particleboard C2/EPA, including the whole manufacturing, managing and analysis processes.

The conclusions obtained from the company inspection and from the study of the internal quality control, show the company is able to manufacture coated particleboards with a low release of formaldehyde (i.e. coated panels with a single value under 0,65 mg/m<sup>2</sup>·h by the EN ISO 12460-3 test method, according to DIBt Guideline N° 100 and IOS MAT 0003) and is able to control this manufacturing.

After doing the appropriate sampling and the analysis of the results, the values obtained are lower than those established in the mentioned requirements.

The test report of the supervision audit has the reference 22203397.

The audit was carried out on 14<sup>th</sup> September 2023.

And for the record and to come into force, the present certification is signed and drawn out in Valencia, October 19<sup>th</sup>, 2023.

Signed: Dra. Rosa M<sup>a</sup> Pérez Campos  
Head of Certification Department  
AIDIMME

**The current certificate has a validity period of 12 months.**
